

## Garden Fields JMI School

### Personal, Social, Health Education Policy

### Including Relationships, Sex and Health Education

#### 1) Context

All schools must provide a curriculum that is broadly based, balanced and meets the needs of all pupils. Under section 78 of the Education Act 2002 and the Academies Act 2010, it states that a PSHE curriculum:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and
- Prepares pupils at the school for the opportunities, responsibilities and experiences of later life.

#### 2) PSHE

At Garden Fields School, we teach Personal, Social, Health Education as a whole-school approach to underpin children's development as people and because we believe that this also supports their learning capacity.

The Jigsaw Programme offers us a comprehensive, carefully thought-through Scheme of Work which brings consistency and progression to our children's learning in this vital curriculum area.

This also supports the "Personal Development" and "Behaviour and Attitude" aspects required under the Ofsted Inspection Framework, as well as significantly contributing to the school's Safeguarding and Equality Duties, the Government's British Values agenda and the SMSC (Spiritual, Moral, Social, Cultural) development opportunities provided for our children.

#### 3) Statutory Relationships and Health Education

*"The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019, made under sections 34 and 35 of the Children and Social Work Act 2017, make **Relationships Education compulsory for all pupils receiving primary education**. They also make **Health Education compulsory** in all schools except independent schools."*

**DfE Guidance p.8**

*"Today's children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way."*

*"This is why we have made Relationships Education compulsory in all primary schools in England...as well as making Health Education compulsory in all state-funded schools."*

*“In primary schools, we want the subjects to put in place the key building blocks of healthy, respectful relationships, focusing on family and friendships, in all contexts, including online. This will sit alongside the essential understanding of how to be healthy.”*

*“These subjects represent a huge opportunity to help our children and young people develop. The knowledge and attributes gained will support their own, and others’ wellbeing and attainment and help young people to become successful and happy adults who make a meaningful contribution to society.”*

**Secretary of State Foreword DfE Guidance 2019 p.4-5**

*“Schools are free to determine how to deliver the content set out in the DfE guidance 2019 in the context of a broad and balanced curriculum. Effective teaching in these subjects will ensure that core knowledge is broken down into units of manageable size and communicated clearly to pupils, in a carefully sequenced way, within a planned programme of lessons.”*

**DfE Guidance p.8**

*“All schools must have in place a written policy for Relationships Education and RSE (Relationships and Sex Education).”*

**DfE Guidance p.11**

At Garden Fields we value PSHE as one way to support children’s development as human beings, to enable them to understand and respect who they are, to empower them with a voice and to equip them for life and learning.

### **We include the statutory Relationships and Health Education within our whole-school PSHE Programme**

To ensure progression and a spiral curriculum, we use Jigsaw, a ‘mindful approach’ to PSHE, as our chosen teaching and learning programme and tailor it to your children’s needs. Appendix 1 shows how we map out the curriculum

#### **4) Whole-school approach**

Jigsaw covers all areas of PSHE for the primary phase including statutory Relationships and Health Education. The table below gives the learning theme of each of the six Puzzles (units) and these are taught across the school; the learning deepens and broadens every year.

<b>Term</b>	<b>Puzzle (Unit)</b>	<b>Content</b>
<b>Autumn 1:</b>	Being Me in My World	Includes understanding my own identity and how I fit well in the class, school and global community. Jigsaw Charter established.
<b>Autumn 2:</b>	Celebrating Difference	Includes anti-bullying (cyber and homophobic bullying included) and understanding
<b>Spring 1:</b>	Dreams and Goals	Includes goal-setting, aspirations, who do I want to become and what would I like to do for work and to contribute to society

<b>Spring 2:</b>	Healthy Me	Includes drugs and alcohol education, self-esteem and confidence as well as healthy lifestyle choices, sleep, nutrition, rest and exercise
<b>Summer 1:</b>	Relationships	Includes understanding friendship, family and other relationships, conflict resolution and communication skills, bereavement and loss
<b>Summer 2:</b>	Changing Me	Includes Relationships and Sex Education in the context of coping positively with change

## 5) Relationships Education

5.1 Relationships Education is statutory; parents do not have the right to withdraw their children from this part of the curriculum.

5.2 Relationships education focuses on teaching the fundamental building blocks and characteristics of positive relationships including:

- Families and people who care for me
- Caring friendships
- Respectful relationships
- Online relationships
- Being safe
- Positive personal attributes

5.3 These areas of learning are taught within the context of family life, taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers). LGBT will be covered as an integral part of PSHE lessons – not as a discrete unit of work. As a school, we believe all children and families should be valued and included, hence images of many different family compositions will be shown within lessons on family relationships.

5.4) It is important to explain that whilst the Relationships Puzzle (unit) in Jigsaw covers most of the statutory Relationships Education, some of the outcomes are also taught elsewhere in Jigsaw e.g. the Celebrating Difference Puzzle helps children appreciate that there are many types of family composition and that each is important to the children involved. This holistic approach ensures the learning is reinforced through the year and across the curriculum.

## 6) Health Education

6.1 Health education consists of 35 outcomes that pupils should know by the end of Primary School. It is statutory and parents may not choose to withdraw their children from this part of the curriculum.

6.2 Both physical health and mental wellbeing are covered, so that children have the information they need to make good decisions. Pupils will learn about:

- Mental wellbeing
- Internet safety and harms
- Physical health and fitness
- Healthy eating
- Drugs, alcohol and tobacco
- Health and prevention
- Basic first aid
- Changing adolescent body

6.3 The 'Changing adolescent body' involves learning about puberty. Learning about how our bodies change and develop is statutory. This includes learning about menstruation.

6.4 Within the growth mindset culture of our school, children become confident in their ability to achieve and persevere even when they encounter setbacks. We also promote pupils' self-control and ability to self regulate through PSHE and mindfulness.

6.5 Teachers may decide to split boys and girls for some lessons in the Changing Me unit in years 4 – 6.

6.6 It is important to explain that whilst the Healthy Me Puzzle (unit) in Jigsaw covers most of the statutory Health Education, some of the outcomes are taught elsewhere in Jigsaw e.g. emotional and mental health is nurtured every lesson through the Calm Me time, social skills are grown every lesson through the Connect Us activity and respect is enhanced through the use of the Jigsaw Charter.

## **7) Sex Education**

7.1 The DfE Guidance 2019 (p.23) recommends that all primary schools 'have a sex education programme tailored to the age and the physical and emotional maturity of the pupils.

However, 'Sex Education is not compulsory in primary schools'. (p. 23)

7.2 It is important that we prepare children in a manner that supports their ongoing emotional and physical development effectively before they move on to secondary school. In essence the DfE RSE guidance concerns the teaching of human reproduction. We have chosen to incorporate some elements of Sex Education within the KS2 curriculum in order to prepare the children for the changes that adolescence brings and ensure they know how a baby is conceived and born. However, Sex Education is not statutory learning within primary schools and parents may choose to withdraw their children from some or all aspects of this. (NB. The teaching of reproduction in a mammal that is covered by the Science curriculum is statutory and parents cannot withdraw children from Science.) Sex Education at Garden Fields JMI School is taught within the Unit 'Changing Me' and is covered in Years 5 & 6.

7.3 All lessons containing Sex Education content will be highlighted within our plans (please see Appendix 2). Parents will be fully informed of our curriculum. Any parent wishing to withdraw their child from the Sex Education components not included in the statutory National Curriculum for Science should contact the Headteacher (via the school's admin email address). The Phase Leader or Year Group leader will explore any concerns and discuss any impact that withdrawal may have on the child.

7.4 Parents and carers should be aware that schools are legally required to teach a broad and balanced curriculum. RSE topics can arise incidentally in other subjects such as Science and it is not possible to withdraw pupils from these relatively limited and often unplanned discussions. It is also worth noting that while a child may be withdrawn from a lesson, it is inevitable that

peers will talk about the content of lessons and parents/ carers should consider whether it is better that their child hears information accurately from a teacher. Teachers will always encourage children to talk to parents and carers about their learning in RSE and to share any worries or concerns.

7.4 At Garden Fields JMI School, we believe that knowledge empowers and protects children as long as it is age-appropriate. We believe we have a duty to prepare children with accurate knowledge about puberty and human reproduction before they transfer to secondary school. Correct terminology for body parts is introduced early to normalise this biological vocabulary and support safeguarding.

7.5 These words are not used in isolation but always in conjunction, ensuring children know these are private parts of their body. Puberty is introduced in Y4 because some girls may start their periods early and it is necessary to prepare them for this, so they are not scared or worried.

7.6 Menstruation is taught in detail in Y4, 5 and 6 . Conception is introduced age-appropriately in Y5 in the context of understanding why our bodies change during puberty. Understanding of human reproduction, conception and childbirth is age-appropriately covered in Y6.

### 7.7 Post Box

We believe that it is best practice to use the 'post box' technique or 'ask it basket' within Changing Me lessons. It will be made clear to children that they can use the post box if they wish to ask a question, or are worried about something. Children will be reminded that this is anonymised.

### 7.7 Managing awkward/tricky/sensitive questions

We acknowledge that some sessions may give rise to some tricky questions. This is our approach:

- Decide whether or not it is appropriate to answer the question in the classroom i.e. is it age-appropriate? (Keep within the remit of the year group's learning intentions as this is what has been agreed with parents/carers)
- Think about what might be behind the child's question i.e. why have they asked it? This may affect how it is answered.
- Keep the answer very simple - children only need to know the answer to their question not the contents of a biology textbook!
- Keep it factual
- If any questions cause concern, it may be appropriate to refer to a safeguarding lead or refer to parent / carer.

There is more advice available from the online Jigsaw Community Area.

### 7.8 Parents' right to request their child be excused from Sex Education

"Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory Relationships and Sex Education" **DfE Guidance p.17**

**Appendix 2** shows the content that parents may withdraw their children from.

7.9 Puberty is taught as a statutory requirement of Health Education and covered in the Changing Me unit of Jigsaw.

## **8) Transition to this Policy from Previous Sex Education programme at Garden Fields**

When Sex Education has been taught at Garden Fields in previous years, it has consisted of puberty being taught in Year 5 and Conception in Year 6. As we have had little time to consult with staff and parents over the content in the Jigsaw Scheme of Work, we will retain teaching conception in Year 6. For this year we will introduce the teaching of aspects of puberty in Year 4 in terms of body change. We will further cover puberty including menstruation in Year 5 as we have traditionally. Appendix 1 shows how for this year we will be teaching the Seesaw units of work from the previous year group.

We will then consult and train staff and consult again with parents about aligning our Sex Education programme fully with the Seesaw Scheme of Work for the summer term of 2022. Therefore the policy will be reviewed again in the Spring term of 2022.

## **9) Monitoring and Review**

The Curriculum Committee of the governing body monitors this policy on an annual basis. This committee reports its findings and recommendations to the full governing body, as necessary, if the policy needs modification. The Curriculum Committee gives serious consideration to any comments from parents about the PSHE /RSHE programme, and makes a record of all such comments. Governors scrutinise and ratify teaching materials to check they are in accordance with the school's ethos.

## **10) Equality**

### **This policy informs the school's Equalities Objectives.**

The DfE Guidance 2019 (p.15) states, "Schools should ensure that the needs of all pupils are appropriately met, and that all pupils understand the importance of equality and respect. Schools must ensure they comply with the relevant provisions of the Equality Act 2010 under which sexual orientation and gender reassignment are amongst the protected characteristics.

At Garden Fields School we promote respect for all and value every individual child. We also respect the right of our children, their families and our staff, to hold beliefs, religious or otherwise, and understand that sometimes these may be in tension with our approach to some aspects of Relationships, Health and Sex Education.

For further explanation as to how we approach LGBT relationships in the PSHE (RSHE) Programme please see the document :  
'Including and valuing all children. What does Jigsaw teach about LGBTQ relationships?'

## **Policy Review**

Policy Proposed Adoption April 2021

This policy will be reviewed again by March 2022

**Appendix 1: Curriculum Map. PSHE including Relationships, Health and Sex Education.**

	<b>Being me In My World</b>	<b>Celebrating Differences</b>	<b>Dreams and Goals</b>	<b>Healthy Me</b>	<b>Relationships</b>	<b>Changing Me</b>

### Appendix 3: Relationships Education in Primary schools – DfE Guidance 2019

The focus in primary school should be on teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults.

The guidance states that, by the end of primary school:

	<b>Pupils should know...</b>	<b>How Jigsaw provides the solution</b>
<b>Families and people who care for me</b>	<ul style="list-style-type: none"> <li>• that families are important for children growing up because they can give love, security and stability.</li> <li>• the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.</li> <li>• that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.</li> <li>• that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.</li> <li>• that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong (Marriage in England and Wales is available to both opposite sex and same sex couples. The Marriage (Same Sex Couples) Act 2013 extended marriage to same sex couples in England and Wales. The ceremony through which a couple get married may be civil or religious).</li> <li>• how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.</li> <li>• about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help.</li> <li>• what a stereotype is, and how stereotypes can be unfair, negative or destructive.</li> <li>• the importance of permission-seeking and giving in relationships with friends, peers and adults.</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>• Relationships</li> <li>• Changing Me</li> <li>• Celebrating Difference</li> <li>• Being Me in My World</li> </ul>

<b>Online relationships</b>	<ul style="list-style-type: none"> <li>• that people sometimes behave differently online, including by pretending to be someone they are not.</li> <li>• that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous.</li> <li>• the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them.</li> <li>• how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met.</li> <li>• how information and data is shared and used online.</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>• Relationships</li> <li>• Changing Me</li> <li>• Celebrating Difference</li> </ul>
<b>Being safe</b>	<ul style="list-style-type: none"> <li>• what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context).</li> <li>• about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe.</li> <li>• that each person’s body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.</li> <li>• how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know.</li> <li>• how to recognise and report feelings of being unsafe or feeling bad about any adult.</li> <li>• how to ask for advice or help for themselves or others, and to keep trying until they are heard,</li> <li>• how to report concerns or abuse, and the vocabulary and confidence needed to do so.</li> <li>• where to get advice e.g. family, school and/or other sources.</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>• Relationships</li> <li>• Changing Me</li> <li>• Celebrating Difference</li> </ul>

## Physical health and mental well-being education in Primary schools – DfE Guidance

The focus in primary school should be on teaching the characteristics of good physical health and mental wellbeing. Teachers should be clear that mental well-being is a normal part of daily life, in the same way as physical health.

By the end of primary school:

	<b>Pupils should know</b>	<b>How Jigsaw provides the solution</b>
<b>Mental wellbeing</b>	<ul style="list-style-type: none"> <li>• that mental wellbeing is a normal part of daily life, in the same way as physical health.</li> <li>• that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations.</li> <li>• how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.</li> <li>• how to judge whether what they are feeling and how they are behaving is appropriate and proportionate.</li> <li>• the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness.</li> <li>• simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests.</li> <li>• isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support.</li> <li>• that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being.</li> <li>• where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online).</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>• Healthy Me</li> <li>• Relationships</li> <li>• Changing Me</li> <li>• Celebrating Difference</li> </ul>

	<ul style="list-style-type: none"> <li>it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.</li> </ul>	
<b>Internet safety and harms</b>	<ul style="list-style-type: none"> <li>that for most people the internet is an integral part of life and has many benefits.</li> <li>about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing.</li> <li>how to consider the effect of their online actions on others and knowhow to recognise and display respectful behaviour online and the importance of keeping personal information private.</li> <li>why social media, some computer games and online gaming, for example, are age restricted.</li> <li>that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.</li> <li>how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted.</li> <li>where and how to report concerns and get support with issues online.</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>Relationships</li> <li>Healthy Me</li> </ul>
<b>Physical health and fitness</b>	<ul style="list-style-type: none"> <li>the characteristics and mental and physical benefits of an active lifestyle.</li> <li>the importance of building regular exercise into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise.</li> <li>the risks associated with an inactive lifestyle (including obesity).</li> <li>how and when to seek support including which adults to speak to in school if they are worried about their health.</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>Healthy Me</li> </ul>
<b>Healthy eating</b>	<ul style="list-style-type: none"> <li>what constitutes a healthy diet (including understanding calories and other nutritional content).</li> <li>the principles of planning and preparing a range of healthy meals.</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>Healthy Me</li> </ul>

	<ul style="list-style-type: none"> <li>the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).</li> </ul>	
<b>Drugs, alcohol and tobacco</b>	<ul style="list-style-type: none"> <li>how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body.</li> <li>about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.</li> <li>the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn.</li> <li>about dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.</li> <li>about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing.</li> <li>the facts and science relating to immunisation and vaccination</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>Healthy Me</li> </ul>
<b>Basic first aid</b>	<ul style="list-style-type: none"> <li>how to make a clear and efficient call to emergency services if necessary.</li> <li>concepts of basic first-aid, for example dealing with common injuries, including head injuries.</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>Healthy Me</li> </ul>
<b>Changing adolescent body</b>	<ul style="list-style-type: none"> <li>key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.</li> <li>about menstrual wellbeing including the key facts about the menstrual cycle.</li> </ul>	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> <li>Changing Me</li> <li>Healthy Me</li> </ul>

**Policy Proposed Adoption: April 2021**

Next Review: March 2022
