

<Think>Big

Empowering children with the Power of Code

- ✧ Fun and engaging Coding Club.
- ✧ Be a 'Creator' of technology, not just a passive 'Consumer'.
- ✧ Learn coding skills and improve your computational thinking.
- ✧ Different technology each term.

- Our Clubs at Garden Fields for Autumn 2021 -

<Think> Games Creator

Wednesdays, during lunchtimes

"It's not about turning your students into gamers, it's about trying to turn your gamers into students".

In this club, children create their own platform style video games, decomposing each aspect of game design – graphics, layout, gameplay, characters, backgrounds, and animation – coding each pixel block to act in the way they want and debugging and improving their creations as they go.

Throughout the Autumn term, Coders will also have log-ins to our Bloxels EDU platform that they can use outside of the club

A great club for developing children's computational thinking!

Cost: £4.50 per week; 13 weeks

To book a place for your child, please email bookings@wethinkbig.co.uk with the following details asap. *Places are limited and will be allocated on a first come, first served basis.*

Ref: GFS Autumn

Child's name & Year group they will be in September

We will then send an e-form for you to complete the booking.

There will be separate clubs for Year 3 & 4, and Years 5 & 6, and all clubs will start on Wednesday 8th September. The final club for the Autumn term will be on Wednesday 8th December 2021.

Payment is £58.50 for the term (13 weeks, £4.50 per class) and details will be sent with your booking e-form.

Please note that, in the event of any disruption to our clubs due to Covid-19, all our clubs will move to an @Home remote provision, with live Google Classroom sessions and resources with recorded vodcasts available online.

<Think> Big was created to form a bridge: A bridge to support primary age school children gain the skills they will increasingly need in a rapidly changing and unpredictable 21st Century.

Since 2017, we have taught well over 4,000 children in our clubs, school workshops, weekend camps, as well as onboard P & O Cruises with our <Think Big> Tech Academy.

Through fun and engaging challenges and activities, our Coders learn to be imaginative and innovative problem solvers – confidence building, life-long skills.

This club will be run by Kevin Rackind, a Primary School Teacher and former Computing Lead.
